

# Announcing the UK's Best Property Professionals...

There are many qualities that distinguish the winners of these highly prestigious awards. Our judging panel seeks everything from innovation, sustainability and eco-awareness to that crucial injection of 'wow-factor'. Excellence has to be apparent in every element, whatever the category may be. I hope that while browsing through the winning companies and projects featured in this brochure you will agree that the overall standard is being raised ever higher.

One of the most strongly contested titles each year is Best Single Unit Property and 2013 was no exception. After much deliberation, the award went to Fulmer Grange by Oakeve. This stunning 'Lutyens Style' Arts & Crafts house, surrounded by formal landscaped grounds is in a highly desirable area of Buckinghamshire.

Best Apartment was awarded to Kidbrooke Village by Berkeley Homes. As a flourishing London community in the Royal Borough of Greenwich, Kidbrooke Village features contemporary new apartments of outstanding quality and sustainability.

Queen's Grove London Residence by Manushi Design has taken the coveted Best Interior Design Private Residence award. Timelessly elegant with well thought-out practicalities, it represents a beautiful family home that offers luxury living with the highest specification.

Many congratulations to these winning companies and all those listed in this publication.

May I also take this opportunity to remind you of one of the many additional benefits of entering the awards programme. Once again we are hosting a series of Property & Hospitality Shows in Dubai and London to which all entrants are invited. These events prove invaluable for targeted networking and forging new business partnerships with companies of an equal high standing. Please refer to our website at [www.propertyawards.net](http://www.propertyawards.net) for full details of dates, locations and how to register.
